"When it comes time to go inland these [JMR: in May the seal-skin bags full of blubber] are placed en cache, preferably on a small island. Be the caches on an island, or not, they are covered with large stones so as to be safe from bears; people, it is said, never steal from such caches. At the same place are also cached usually the winter lamps, the heavier stone pots, the winter clothing and all good clothes, and in fact everything that is not absolutely needed for the summer. On account of taboo restrictions no blubber is taken along inland."
